修改秘籍（原创改写法）

Secret Methods of Modification (Original Adaptation Method)

江湖上流传着很多修改方法，什么做图片、插表格、中译英-英译中、打乱顺序、删除关键词、关键句等等等等.....

Nowadays, there are a lot of modification methods, such as making pictures, inserting table, Chinese-English translation, order disrupting, key word and key sentence deleting and so on.....

但是随着检测系统的升级，以上投机取巧的方法越来越不“显灵”，唯有“原创改写法”可以不变应万变，改写即是原创过程。

However, as detection system upgrades, the above opportunistic methods become useless, and only original adaption method can cope with shifting events by sticking to a fundamental principle. Adaption is namely a process of creation.

闲言少叙，以下是实际举例：

Let's cut the crap and see the examples shown below:

例 1:

Example 1:

原文：好汉不吃眼前亏

Original Tex: A wise man knows when to retreat

可改为：有智慧的人总是懂得隐忍

Adaption: People who have wisdom know how to endure silently

例 2:

Example 2:

原文：父母是幼儿的第一任老师，幼儿良好行为习惯的养成首先是家庭教育的结果。幼儿良好行为习惯的培养不是随意进行的，而是需要遵循幼儿的身心发展的规律和特点。

Original Text: Parents are the first teacher of children, and children's good behavioral habits are cultivated by family education. Parents shall follow the rules and characteristics of children's somatopsychic development in

terms of the cultivation of children's good behavioral habits instead of carrying out randomly.

可改为: 孩子呱呱坠地, 一言一行皆师父母, 父母对孩子的教育以及身体力行的模范作用, 对孩子幼儿时期的行为产生至关重要的影响。家庭对孩子的教育需遵循科学的方法, 不可信手拈来、即兴发挥。

Adaption: After the child came into the world with a cry, every word and action are taught by parents. Playing an exemplary role, parents have crucial effect on the behaviors of children during early childhood. In terms of early childhood education, parents shall follow scientific method rather than using wrong methods extemporaneously.

例 3:

Example 3:

原文: 安泰集团一股独大结构限制了中小股东参与经营决策, 中小股东本身从众心理, 主观上缺乏参与意识。当前我国资本市场中, 中小股东因为持股比例小于其他股东, 对上市公司的经营发展需要承担的风险小, 而认为不需要为其发展负责。许多中小股民从来不关心关联方交易披露内容, 而是要坐享其成。这种情况造成大股东肆无忌惮转移资产, 使中小股东处于被动地位, 失去应有的制约作用。

Original Text: Because the sole majority shareholder of Antai Group limits the participation of minority shareholders in operating decisions, minority shareholders have group psychology and lack the sense of participation subjectively. In current China's capital market, with smaller shareholding ratio than other shareholders and bearing little risk to the operation and development of the listed company, minority shareholders think that they don't need to be responsible for the development of the company. Many minority shareholders only want to reap where one has not sown and do not concerned about the content disclosure of related-party transactions, which causes the situation that major shareholders transfer assets unscrupulously and minority shareholders are in a passive position and lose due restrictive function.

可改为: 在集团股份中占绝对优势的安泰集团牢牢把控了集团公司的经营决策权, 中小股东无法撬动权利杠杆, 不能左右集团公司的战略决策, 往往选择集体沉默。在国内资本市场大环境背景下, 上市公司中小股东无需承担较高的金融风险, 绝大多数中小股东坚信公司的决策无需自己参与, 只需等待盈利分红即可, 对交易披露视而不见。这种麻痹的心理, 无形中为大股东转移资产创造了便利条件, 这直接导致了中小股东权益的损失, 以及制衡监督作用的丧失。

Adaption: In Antai Group, major shareholders who dominate the advantage firmly control the group's rights of management and decision-making, and minority shareholders often choose to keep silent collectively because they cannot lever the power and influence the group's strategic decision-making. In China's capital market, minority shareholders of listed companies do not need to bear relatively high financial risks. Besides, firmly believing that they just need to wait for profit dividends, majority of minority shareholders turn a blind eye to transaction

例 4:

原文：作者用极俭的笔墨拨弄着少女心灵深处泛起的涟漪，那份若有若无的情感、情窦初开的少女情怀显露无疑，翠翠的爱是朦胧的，没有极端的想念，只有对心念之人的若有若无的回忆，想抓住却又抓不住，想放下却又放不下，这大概就是一份模糊的期待，说不上有多美妙，却令人万分不舍。

可以改为：作者干练之笔层层拨开了少女的内心世界，虚无缥缈的萌动春心昭然若揭。少女翠翠的感情是模糊的，没有声嘶力竭的呼喊，有的仅仅是对心上人似有还无的思念，想清晰却又愈发的模糊，想干脆忘掉却又挥之不去，这也许便是一种稀里糊涂的期许，它并不美轮美奂，却欲罢不能。

Adaption: With capable language, the author opened the maiden's inner world and showed the illusory desire for love abundantly. Cui Cui only missed her lover vaguely without hoarse shout. She wanted to forget him but failed, which was a kind of muddled expectation that she tried to stop but cannot.

通过以上案例可以看出，我们的表述方式几乎和原文不一样，但是意思却基本一致，这是最最最靠谱的改重方法。因为从原理上来，是我们消化了别人的知识，转化为自己的知识，然后再表述出来，这本身就是一个学习的过程啊。咱们经过这么一个过程的历练，这篇论文，难道不是自己的原创吗？

The above examples show that with different expression methods from the original text, the same meaning is expressed. This is the most reliable modification method, because from the perspective of the principles, we digest other people's knowledge and express it after transforming it into our own knowledge, which is a learning process. After this process, isn't this paper our own original work?
